DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimers filed on 4/26/2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 5,945,491 and US 5,807,937 has been reviewed and is accepted. The terminal disclaimers have been recorded.

Claim Rejections - 35 USC § 112

2. Claims 68-71, 75 and 76 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The intended scope of the claims cannot be determined because the claim language "a second initiation site" renders unclear the distinction between the reactive site of an initiator and the reactive (polymerizable) site of a molecule acting as a monomer. Specifically, the reactive site of an initiator is understood to mean a site which has a component which initiates and participates in a repetitive reaction at a polymerizable site on monomers, resulting in polymerization of that monomer. In contrast, a polymerizable site on a monomer does not contain an initiator outlined above, but reacts with an initiator to form a polymerized molecule, each reactive site on a monomer reacting only once. However, it cannot be determined whether applicants' claims are intended to cover only those multifunctional initiators which have two distinct

Art Unit: 1713

reactive initiator sites (including at least one ATRP site) or whether the claims are intended to include those multifunctional initiators which have an ATRP initiator site and a polymerizable site which reacts (as a monomer) by non-ATRP methods to form a polymerized ATRP macroinitiator.

3. Applicants have not responded to the issue set forth in item 7 of the Office action mailed 1/26/2005 regarding common ownership at the time the invention was made. Should applicants again fail to address this issue, Notice of Non-responsive amendment may be sent, or new rejections under 35 USC 102(f) or (g) may be made.

4. Claims 78-86 are allowed. Claims 72-74 and 77 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
